

# The Adventurous Journey

My journey to the center of the Earth

Is where I will travel first

My journey down south

Straight to the mouth

Rocks, dirt, and lava downpour

Going to the core

Will not be a bore

I will surf the lava

And climb the hills

If I see a big creature

It will give me the chills

I will get to the center

And see all the flames

Then I will notice

I'm not playing games!

I will want to be above the ground

Where I can see my favorite town

I'll hack and whack to get up there

Treating nothing with great care

Then I'll be upon the surface

Breathing the fresh air.
